AUGUST 2022

Connecting with Leadership:

Recently I heard on the radio someone call August 'the month of remorse'. They stated this because August is when people realize they didn't do things they planned or wished to do at the start of summer and before school starts back up. That makes some sense as I recently had a couple of similar thoughts, however we still have a month of summer and for most people school is still weeks away. This statement also made me reflect to the recent email sent out from our human resources staff in regards to self-care and encouraging that we proactively take time for ourselves. Self-care doesn't have to be complicated it can be some of those things we planned to do such as maintaining friendships, getting exercise, planning a trip with loved ones, going to a local fair with family, etc. I will be revisiting and prioritizing some of those plans and wishes I started the summer out with and I encourage you to as well. Lets not reflect on what we didn't do, but instead share stories of what we did do in August.

I would also like to recognize and welcome some of our new leadership staff! Take a moment to learn more about Michele Fournier our new Director of Domestic Violence and Sexual Assault Services; Venus Griffin our Strategic Initiatives Manager; and Krista Schlecht our Food Access Manager in the following articles.

Thank you,
Tony B.

Staff Spotlight

Michele Fournier is the new Director of Domestic Violence and Sexual Assault Services for Family Pathways. Michele has worked with survivors of domestic and sexual violence for over 20 years and has created programming, as well as presented trainings regarding domestic and sexual violence, and its effects on victims, families and children to numerous organizations across the state. She is a graduate of St. Mary's University with a Master of Arts Degree in Human Development, with an emphasis in counseling and trauma. Although Michele knows that providing services and support for victims of domestic violence and sexual assault can be hard, Michele knows the services are absolutely needed and are crucial in order to provide and ensure long-term safety within the community. Michele is excited to work at Family Pathways because she believes that the organization and the staff can send a consistent message throughout the communities that we serve that domestic violence and sexual assault is not acceptable and is not going to be allowed. Michele also believes, "that when I wake up in the morning and I am enthusiastic about going to work and when I go home at night knowing that we made a difference in people's lives, I figure the day has been a success." One fun fact about Michele is that she loves the ocean and the beach and tries to take many long weekend get aways to Florida in the winter!

Krista Schlecht is our new Food Operations Manager. Prior to taking on this new role, Krista was the Food Shelf Coordinator at the St. Croix Falls Location. Krista says "I love Family Pathways, the mission, the people, the volunteers, all of it! I look forward to helping to continue to move this organization into an uncertain future. And assist every person as much as I can." When asked for a fun fact about herself, Krista replied, "Fun fact about me? I'm really boring lol. My husband and I like it that way. We live in the middle of the woods and grow all our own food and just enjoy peace and quiet."

Venus Griffin is the new Strategic Initiatives Manager for Family Pathways. This is a brand new role for the organization. Venus was working as Lindstrom Thrift Store Manager before accepting this new opportunity. Venus commented, "I am excited about the opportunity to continue to grow with Family Pathways in a brand-new position. A fun fact about me is I ran track and field in high school and was All-State 2 times." Congratulations on the new roles Krista and Venus, and welcome to Michele!
